

## Spokes Competition 2011 – My Cycling Solution - Entry Comp2011-4

**A problem I have encountered with cycling is that I am always sniffing (especially during the hay fever season) and need to have a steady supply of paper hankies easily to hand. Pockets at the back of a jacket and hankies stuffed up sleeves aren't the ideal answer.**

**How I solved it: My front lamp is the same size as a packet of paper hankies. A packet of hankies is secured with a couple of rubber bands (the ones dropped by postmen are ideal!) and I have a new hanky ready whenever I need it!**
