

My Favourite Place by Bike

A1 underpass at Biel Mill

grid ref 6161 7743

Why it's my favourite place by bike

This entry is in 2 parts

The first picture is quite a nice example of an East Lothian signpost – tilted but hanging in there.

The second part relates to the underpass at Biel Mill which connects rural E. Lothian to East Linton etc. The new Haddington A1 by-pass threatened this link and it was only the persistent campaigning of Peter Hawkins and others at SPOKES which nagged the road developers into constructing the underpass. This entry is a tribute to their persistence in rescuing a link which I think deserves to be better known.
