

21st June 2018 Street Activations on Clean Air Day

This is a draft programme – events, event times and event locations may change.

9.30 – 10.00 Mound Precinct – **procession** (*with Transport Minister & Council Leader*) – see overleaf

11:00 – 12:00 The Mound

Free open-air yoga class on The Mound!

11:00 – 17:30pm East George Street

Artist led mural wall painting for all. The painting wall will reflect the history of the area, feelings and reflections about the street and feature the games children love playing in the street. Some panels may take inspiration from James Craig's original plans for the Newtown.

10:00 – 17:00 Stalls on George Street: SEPA, Sustrans, PAS, Cycling UK, George Street New Town Project

10:30 – 12:00 The Mound

Hart's Cyclery – E-bike and Cargo bike demos up The Mound.

Try riding an E bike up The Mound! E bike demos by Hart's Cyclery and Electric Cycle Company.

10:00 – 12:00 South Hanover Street

Breeze Cycling will be joining the procession and providing a mini coaching session in South Hanover Street. After coaching they'll be taking off for a ride - sign up!

11:00 – 14:00 East George Street

Cycling UK are showcasing two of their inclusive cycling programmes during the Clean Air Day; our Play Together on Pedals trainers will be providing an opportunity for pre-schoolers to get moving on our balance bikes, with pedals bikes on hand for anyone ready to take the next step on two wheels! We'll also have some of our Edinburgh ABC (all ability cycling) adaptive bikes available for anyone that needs some extra support to get cycling because of disability, balance or co-ordination issues.

12:00 – 22:00 Enjoy relaxing in our urban garden space in George Street while the children play. A new space to sit and relax with temporary landscaping and seating - demonstrating the benefits of greening on placemaking and air quality. Bring your own picnic lunch.

12:00 – 17:00 East George Street

With a passion for cycling Outspoken Cycles organises fun, dynamic and unique themed event activities for adults and children. On Clean Air day they bring two activities:

Watt Challenge - a fun activity that utilises the power of bicycles to power a series of lights.

Participants cycle static bikes to drive motors which produce electricity. As more bulbs light, the resistance increases and participants have to work harder — the challenge is to see who can power the most! Watt Challenge is a great way of relating energy use in the home to a real life experience of how much relative human power is needed. There are lots of discussion points from Science & Technology to environment, sustainability and energy use.

Pedal Powered Scalextric - we take this classic game and give it a whole new experience by using bikes to control and power the cars around the track. Suitable for both children and adults, riders take it in turns to do a few warm-up laps before testing their skills head to head over 20 laps. With an emphasis on control rather than raw power, be surprised at who tops the leaders board!

12:00 – 17:00 East George Street

Living Streets, the UK Charity for everyday walking wants a nation where walking is the natural choice for everyday local journeys. Their mission is to achieve a better walking environment and inspire people to walk more. Living Streets Scotland bring a number of drop in events for children to George Street including group dancing and games as well as a walking challenge. There's an opportunity to meet the mascot!

18:00 – 20:00 East George Street

Edinbop dance group will be performing a mass Lindy Hop!
