Tell us more about Granton Waterfront

1 What is your postcode?

Postcode:
EH11 3HU

2 Are you responding as:

An organisation (Please Specify)

Please specify organisation:
Spokes, the Lothians Cycle Campaign

Place & Identity

3 What would attract you to live / work / visit Granton Waterfront?

live/work/visit:

This is brownfield land, well situated for already-existing public transport and possible tram, relatively close to the city centre, and close to many amenities. Because of the demand for housing, this site should be mainly that. The amount of land used for car parking should be kept to an absolute minimum, especially as there is good local public transport as well as a network of cycle paths. Basically car parking land is wasted land. Whatever parking IS provided should either be underground, or paid for by the users.

4 There are a number of features in Granton Waterfront which make the area unique including Granton Station building, Madelvic Car Factory, Granton Castle Walled Gardens, Waterfront Promenade, Gasometer and Forthquarter Park. Do you have any ideas of ways in which these could be used in the future?

Future:

5 What additional space/services do you think the Granton Waterfront area needs in addition to new homes, school and medical centre? (select as many as you like)

Shops

Please Specify:

Being Outdoors

6 Granton Waterfront has a number of outdoor and natural assets including the beach, Forthquarter Park and the Waterfront Promenade. In the future of Granton Waterfront how would you like to see these used and improved?

Improving Natural Assets:
Cycle route along the shore

7 Which of the following outdoor projects would you like to see developed in the Granton Waterfront area? (select as many as you like)

Improvements to existing green space, Outdoor activities around the former quarry, Extending and/or improving the promenade

Other Please Specify:

Moving Around

8 Are there particular barriers in Granton Waterfront that make it difficult for you to get around by foot, bike, car or bus etc?

Getting Around:
Cycle routes need better surfaces, and good signage

9 What do you think would make getting to and around Granton Waterfront easier?

Slowing down traffic in the area, Better / more pedestrian routes and cycle routes, Extending and improving the promenade

Other (Please Specify):

Being Sustainable

10 Which of the following do you think should be prioritised to make Granton Waterfront a more environmentally sustainable area? (select as many as you like)

Make sure all new homes are energy efficient, Using new and innovative technology for heat and power., Local power generation (e.g. solar panels), Make it easier and safer to cycle around, Reduce the need to travel (e.g. local work/services etc)

Other (please specify):

Learning, Work & Local Economy

11 Which of the following do you think the local economy needs most? (select as many as you like)

Live / Work homes in new development

Other (please specify):

12 What new learning opportunities do you think the area needs most? (select as many as you like)

Other (please specify):

Conclusion

13 How did you find out about this consultation?

City of Edinburgh Council Social Media
