subject: TRO 17/91 AND RSO 18/05 - CITY CENTRE WEST TO EAST CYCLE LINK AND ASSOCIATED STREET IMPROVEMENTS

Dear Sir/Madam

I am writing on behalf of SPOKES to express support for these Orders. Although certain aspects of the proposals could be improved from a cycling point of view, we understand that account has been taken of other interests and we are grateful for the work of the Active Travel Team who have given careful consideration to our comments while these orders were being prepared.

Best wishes

Explanatory note – Spokes had already responded in detail to the earlier Stakeholder Consultation release of these Orders, and had received acceptable responses from the Council.

See para 1711 on our City Centre web page...

In view of this Spokes decided merely to write formally (as above) supporting the Orders when they were published for public objection.
