subject: Covid-19 Measures at Preston Street Primary School

Spokes welcomes the proposal for footway widening in the vicinity of Preston Street Primary School.

To help cyclists passing through the area past the school, the footway widenings should not create cycling pinch points:

The footway build-out in East Preston Street should not go further out than the north side of the continuation of the current cycle lane.

The cones closing the inside "straight-ahead" lane in Dalkeith Road could allow room for a cycle lane for cyclists going straight on northwards along Dalkeith Road.
