

Stenhouse Primary School

Spaces For People

We welcome these proposals:

- Saughton Mains Street – Close road in line with school gates to provide space for pedestrians whilst maintaining access for cyclists in the barrier design.

A closure between Saughton Mains Street and S.M. Drive was established years ago (with cycle permeability through the barrier), so the new closure simply extends the existing one by a few yards. However, the extra space is welcome, since it coincides with the school gates, and removes space that would be used by parents dropping children off and turning their vehicles.

The new closure will reduce air pollution at the school gates and might encourage parents to walk or cycle their children to school.

I inadvertently omitted to send in this comment by the due date, partly because of the overwhelming number of other similar consultations! I hope it can be accepted, with apologies.
