subject: Castleview Primary School - Support

Dear Spaces for People team

Spokes Party welcomes the proposals for small interventions around Castleview Primary School and it should result in a slight improvement for cycling as usable road space will increase.

However, we believe more significant improvements would come through a School Street style scheme. We appreciate that you may consider this outwith the scope of SfP but we hope that the school, as with all others in the city yet to benefit from such safety interventions, could be considered for School Streets as a priority.

Kind regards

Spokes Party
