Our projects

Gorgie Dalry

20-minute neighbourhoods are places where everyone can meet most of their daily needs within a short walk, wheel or cycle from their home.

With its independent shops and restaurants, schools and community services, Gorgie Dalry has many of the ingredients to make a successful 20-minute neighbourhood for local people.

We would love to know your thoughts on how the area could be better for your essential needs.

To help us deliver the best project for everyone we will first focus on Dalry and local schools, before looking at Gorgie in more detail in the future. We will use this information to help develop a plan to reimagine the centre of the neighbourhood.

We are listening

We will be at the corner of Dalry Road and Easter Dalry Road on the afternoons of Thursday 1 December and Saturday 3 December.

If you have feedback on specific parts of Dalry and the area around Tynecastle High School, [please use the map tool](#). This lets you drop pins onto a map alongside your thoughts and ideas.

The [Place Standard tool](#) lets you tell us how you currently experience the area, what you think is good and what could be better about Gorgie Dalry. This could take approximately 15 – 20 minutes.

Both online options are open for feedback until 11.59pm on 15 January 2023.

Email us for paper versions of these surveys

20minuteneighbourhood@edinburgh.gov.uk

We will also organise further workshops with pupils and students of Dalry Primary School and Tynecastle High School, interview business owners and speak with community groups over the coming weeks and months. Please check back on this page for updates.

Overview

20-minute neighbourhoods are places where everyone can meet most of their daily needs within a short walk, wheel or cycle from their home.

We want to develop a plan to reimagine Gorgie Dalry as a more thriving place that is healthier, greener and safer for everyone.

We are starting by looking at the following project area which covers Dalry and streets around Tynecastle High School.

This survey will help us understand local needs, opportunities, and any barriers that limit people making more active, sustainable travel choices.

Map of the current project area

SW20 @sw20ed@mastodon.scot @SW20Ed · 12h

...

Replying to @SpokesLothian @CyclingEdin and 8 others

#Gorgie #Dalry needs #busgates to speed up buses & get people to stay, not drive thru @rsmcksg @cathyfullerton @DenisDixonSNP @CllrDanHeap

Bus gate halfway along each would move through traffic to Western Approach but maintain local access & deliveries.
