

Thanks to continuing sales of the hugely popular [Spokes Maps](#), we decided to allocate some of the profit to four grants to assist Spokes households towards the costs of a cargobike. Fiona and Alasdair were one household who applied. We contributed to their Radwagon 4 Cargo bike, and this is their report. Do consider following their example!

---

May 2023

Dear Spokes,

We are so grateful for the grant towards our cargo bike. It's become an integral part of our day to day life supporting travel to school, clubs and functioning as a general pack horse! It has replaced our car for almost all our journeys within the city bypass, journey's that were previously too far for us to negotiate with two young (often tired) kids. We've enjoyed discovering cycle paths and look forward to continuing to explore more over the Summer 😊. We love it.

Turns out it is actually quite hard to take photos as we are always cycling it and not on our phones! Here are a couple, one with us just arriving home and one enjoying a picnic tea between nursery pick up and gymnastics.

Fiona, Alasdair, Ruaridh and Isla
