

## Nicolas Compagnion, Local Plumber and Heating engineer

**Spokes granted Nicolas £2000 in 2023 towards the cost of a Riese and Muller Transporter 75 cargobike. A brief report is below.**

"Hello!

The Cargo bike is a great success!

I now use the van as little as possible. I save on fuel, parking fees, parking fines, frustration, time and van maintenance. I am also fitter.

Overall, I save money, I am happier and discover Edinburgh.

I also don't feel guilty anymore to drive a 2.2 tonnes van when just carrying 200 kg.

I had to re-organise my workshop around the cargobike. I can now load the cargo sheltered. I also have my tools and plumbing fittings closer to the job than with the van.

Many thanks again for your help,"
