

TRO/25/13 closing 11.7.25

This TRO covers the public realm works needed for the Kings Theatre, but includes part of Meadows-Canal and makes the Valleyfield St cycling contraflow permanent.

This is the initial 'stakeholder' consultation before it is advertised for objections

Spokes response

Dear Traffic Orders,

Spokes supports the restrictions and cycle exemption proposed within TRO/25/13 and the subsequent benefits to pedestrians and cyclists they will enable.

We would support the introduction of no loading at any time restrictions at the east of Valleyfield Street, adjacent to the cycle access to North Meadow Walk. This would further protect the cycle access from vehicle obstructions.

We continue to support including contraflow cycling on Tarvit Street as part of this order. This element of the wider Meadows to Canal project should be delivered as soon as possible.

Many thanks,
Alex Robb
Spokes Planning Group
