

## **Walking, wheeling and cycling improvements in Currie, including links to Curriehill Station**

May 2025 consultation – Spokes response

<https://consultationhub.edinburgh.gov.uk/sfc/currie-walking-wheeling-cycling/>

The Spokes submission was made online. No exact record was kept, but our main points were...

- Strongly supporting the individual measures, but with the following..
- The proposed zebra and parallel crossings at Curriehill Road/Riccarton Avenue should be raised to reduce vehicle speeds.
- The proposed one-way plug on Forth View Crescent should use a splitter island to protect cyclists at the junction.
- The existing raised crossing point should be retained as traffic calming at Currie Primary School, in addition to the new crossing point.
- Lanark Road West/Curriehill Road should have a raised table installed, as well as the proposed radii reduction.
- The proposed ramp, as well as the existing section between Pentland View and Lanark Road West, should be shared use.
